

HAMDHAN JAFER KM

About Me

I am a recent Plus Two graduate with a focus in Computer Science, passionate about technology and eager to begin my career in the IT field. I have a solid foundation in programming, computer applications, and problem-solving. In addition to my technical background, I also have basic skills in video editing, which reflects my creativity and interest in multimedia. I am a quick learner, a team player, and highly motivated to take on new challenges and grow in a professional environment.
